

## **British Society of Dowsters Training Programme**

### **Earth Energies and the Spirit of Place – an introductory course in Earth Energies Dowsing (EE1)**

**Tutored by BSD Registered Tutor, experienced in dowsing for earth energies, in weekend format or minimum 12 hours tuition**

#### **Aim**

- To give a thorough understanding of the nature and scope of dowsing for earth energies and an introduction to the concept of the Spirit of Place

#### **Objectives: At the end of the course the students will be able to:**

- Dowse for the location and nature of earth energies
- Explain the need and importance of matching human use with the intrinsic and cultivated energies present in any site
- Use dowsing techniques to connect with the Genius Loci/Spirit of Place
- Apply the BSD Code of Ethics in the context of earth energies dowsing

#### **Historical perspective**

- Outline of history and development of practices relating to earth energies around the world, and the role of dowsing and dowsters in working with earth energies today

#### **Understanding of earth energies**

- Overview of the source, nature and categories of Earth Energies, historically and currently used terminology, and the current development of a contemporary geomantic vision

#### **Dowsing the scope of earth energies**

- Underground streams and veins of water
- Blind springs
- Energy leys
- Grid systems
- Caducean, serpentine and polarised pairs of lines
- Variously categorised straight and sinuous pathways
- Patterns of geometric shape and form
- A brief outline of geopathic stress
- Demonstration of effect of earth energies on human aura

#### **Matching human use to local earth energies and the Spirit of Place**

Earth energies, energy patterns and consciousness most appropriately found in:

- Sites for spiritual & religious practices
- Homes and gardens
- Offices and places of industry and commerce
- Farms and cultivated land
- Forest and wilderness areas

### Techniques for dowsing earth energies

- Review use of pendulum, L-rods, Y-rod, wand / bobber and aurameter
- Practical on-site dowsing exercises including as many earth energy categories as possible
- Review and application of map dowsing technique

### Dowsing resources

- Information about recommended books and websites, the activities of the Earth Energies Group, and further training opportunities and events within the BSD
